

DOEA Order Visitation

Members and Friends, This subject was discussed at FSGA's Virtual Conference; Secretary Prudom committed to making sure that guardians were specifically named. Please see the following information, for the full order please click the link below:

Florida Division of Emergency Management Issues Emergency Order to Lift Visitation Restrictions in Nursing Homes, Assisted Living Facilities and Other Long-Term Care Facilities

TALLAHASSEE, Fla. – Today, at Governor DeSantis' direction, Florida Division of Emergency Management Director and State Coordinating Officer Jared Moskowitz issued an Emergency Order that lifts restrictions for visitation to nursing homes, assisted living facilities (ALFs), adult family-care homes, adult group homes and other long-term care facilities.

The Emergency Order requires all visitors to wear PPE pursuant to the most recent CDC guidelines, and those not making physical contact still must wear a mask. Per the Emergency Order, to accept general visitors, the facility must meet the following:

- No new facility-onset of resident COVID-19 cases within 14 days other than in a dedicated wing or unit that accepts COVID-19 cases from the community;

- If a staff member tests positive for COVID-19, the facility must immediately cease all indoor and outdoor visitation in the event that staff person was in the facility in the 10 days prior to the positive test;
- Sufficient staff to support management of visitors;
- Adequate PPE for facility staff;
- Adequate cleaning and disinfecting supplies; and
- Adequate capacity at referral hospitals for the facility.

Every facility must continue to prohibit the entry of any individual to the facility except in the following circumstances:

- Family members, friends and individuals visiting residents in end-of-life situations;
 - Hospice or palliative care workers caring for residents in end-of-life situations;
 - Any individual or providers giving necessary health care to a resident, provided that such individuals or providers comply with Centers for Disease Control and Prevention (CDC) for PPE, are screened for signs and symptoms of COVID-19 prior to entry and comply with all infection control requirements of the CDC and the facility;
 - Facility staff and residents;
 - Attorneys of Record for a resident in an Adult Mental Health and Treatment Facility or forensic facility for court related matters if virtual or telephonic means are unavailable;
 - Public Guardians, Professional Guardians and their professional staff as defined in Florida Statue 744;
 - Representatives of the federal or state government seeking entry as part of their official duties;
 - Essential caregivers and compassionate care visitors; and
-

- General visitors under specific criteria set forth under the Emergency Order.

The Emergency Order directs all facilities to ensure visitors are not quarantining, positive for COVID-19 or symptomatic. The Emergency Order also requires facilities to screen visitors, establish limits on the number of visitors allowed, schedule visitation ahead of time, clean and disinfect visiting areas between visitors and other protective measures to reduce the spread of COVID-19.

General visitors will need to be 18 years of age or older, wear a face mask, sign a consent form indicating they understand the facility's visitation policies, comply with facility-provided COVID-19 testing if offered and maintain social distance of at least six feet with staff and residents.

This order will be implemented in the upcoming days as long-term care facilities begin to put new procedures in place to comply with the Emergency Order.
