SELF-ASSESSMENT CHECKLIST

Score and Prioritise

Checklist Scoring Scheme

The scoring scheme above represents a sliding scale and courts should assess whether some action has been taken and if so how much more needs to be done. A score for "can improve" should be given between 2 and 4 points which reflects how much improvement remains to be made. The Checklist should be used to undertake the self-assessment (initial health check) of a court.

Self-Assessment

Each of the Seven Areas of Court Excellence is listed on the following page with statements of court practices that embody the accepted court values. They represent the ultimate goals courts should be striving to achieve. It is excellence in each of these areas that a court should be striving for and as this is a continuing process there will always be new and innovative ways for a court to improve its performance.

The statements for each area are followed by a Checklist of actions or activities courts are expected to have implemented to achieve *Framework* expectations. The actions/activities are not exhaustive but are indicative and provide initial guidance. Courts will identify their own actions as they become more familiar with the *Framework* approach. The statements are identical to those contained in the full *Framework* Self-Assessment Questionnaire.
