

Closing Activity for Alianza por la Paz de Loíza (Alliance for the Peace of Loíza)

Friday, June 18, 2021 / 10:30 am to 12:00 pm

Notes

Reflection on what has been learned

1. What did you learn over the course of our educational activities?
2. How will it help you to attend to social problems in the communities with which you work?

Reflection on strategies to educate the community

How would you educate your communities about these subjects and the services of the Judicial Branch?

For example, how would you educate them to better know the processes and their rights on going to court?

What could be some of our next steps to continue collaborative education efforts in the community?

Possible future collaborations:

1. Impact teachers of Nuestra Escuela so that they have the most complete information and can share it with their groups of students (Court System Module)
2. Printed material about the subjects for the communities
3. Virtual activities open to all (learning community of Facebook)
4. New cycle of educational activities with community and faith-based leaders.
